

**Jaya Kishore Reddy**  
CTO and Co-founder, Yellow.ai  
[kishor@yellow.ai](mailto:kishor@yellow.ai)

**Jaya Kishore Reddy** is the Chief Technology Officer and Co-founder at Yellow.ai (formerly known as Yellow Messenger), a leading next-gen Total Experience(TX) Automation platform, enabling enterprises to deliver human-like interactions that boost customer satisfaction and increase employee engagement at scale.

A programmer at heart, experienced in rapid prototyping software products, Jaya Kishore has been instrumental in building the technology at Yellow.ai from ground-up. He is very passionate about driving innovation in products and services for superior enterprise automation solutions. In 2010, he built a Human GNOME Analyser to visualize human gene sequences to understand the variances in patients, one of the few gnome viewers in the world.

Jaya Kishore completed his Masters in Information Technology from IIIT Hyderabad, post which he worked for 6 years in organisations like Myntra and CA technologies before founding Yellow.ai.

An automobile and tech enthusiast, he enjoys riding, driving and spending time with his 2 year old son, when not coding for Yellow.ai.
